Contract Summary

This statewide contract is for the acquisition of enterprise communication (telephony and data, including VoIP) systems, services, equipment, associated peripherals and accessories. Services include network assessment, design, engineering, integration, management, maintenance and consulting for telephony systems and their associated data networks. Buyers whose projects do not involve voice traffic should consider utilizing the Statewide Contract for Information Technology Hardware, Project Management, Integration, and Maintenance – ITC47.

This statewide contract supports the consolidation of the Commonwealth's telecommunications networks and infrastructure into MassVoice, the enhancement of the Network Services model of the Commonwealth as directed by Executive Order 549 and as expressed in the Strategic Plan of the MassIT – Massachusetts Office of Information Technology. Details of the MassVoice offering can be found in the [UC MassVoice Product Definition](#). For more information on the MassVoice offering, or to schedule a meeting on how to move forward with the MassVoice offering, contact your SAM (Service Account Manager) or email to ITD-DL-SAM@MassMail.State.MA.US.

Contractors are prohibited from selling Converged Voice and Data Communication Systems, Services, and Equipment to agencies and departments of the Executive branch without the prior written approval of the Commonwealth CIO or designee.

Executive branch agencies and departments must obtain the prior written approval of the Commonwealth CIO or designee before procuring Converged Voice and Data Communication Systems and Services that may be available via the MassVoice infrastructure.

Pricing and Purchase Options (All Categories)

Purchase Options:

Most purchases made through this contract will be outright purchases. Services may be hourly rate or fixed price (such as an annual maintenance contract). Leasing is not available from the vendors on this contract, but the statewide contract for IT Asset Lease Services, ITC49, may be used for operational term leasing purposes (i.e. title remains with the ITC49 vendor and the equipment is

returned to the vendor at lease end), or the statewide contract for Tax Exempt Lease Purchases (T.E.L.P.), PRF54 or their successors.

Pricing and buying details:

It is recommended that buyers solicit multiple quotes for purchases under this statewide contract. The Authorizations tab of the Vendor Summaries document lists the Primary OEM Brands for which the vendor has documented manufacturer authorization(s). Buyers are encouraged to solicit quotes from all vendors possessing the authorization of the Primary OEM Brand being sought. The Primary OEM Brands represent those brands identified by independent industry analysts as being the most significant technology providers in the technology areas relevant to converged voice and data communications systems.

The Statement of Work (SOW) template is provided to assist buyers in documenting project requirements and performance milestones for a Request for Quotes (RFQ). The result should be more thorough and less ambiguous vendor responses.

Orders placed under this contract should include the following statement: "This order is placed under Statewide Contract ITT50." In addition it is recommended that the following language be included: "All of the terms and conditions of the Statewide Contract ITT50 are incorporated herein and made a part hereof. Conflicting or additional terms, conditions or agreements included in or attached to this form shall be considered to be superseded and void."

Performance and payment time frames which exceed Contract duration:

All term leases, rentals, maintenance or other agreements for services entered into during the duration of this Contract and whose performance and payment time frames extend beyond the duration of this Contract shall remain in effect for performance and payment purposes (limited to the time frame and services established per each written agreement). No written agreement shall extend more than one (1) year beyond the final termination date of this Statewide Contract without the prior written approval of the OSD Contract Manager. No new agreements for services may be executed after the Contract has expired.
